MUHAMAD FARHAN

Fresh Graduate | Full-Stack Web Developer

+62 813 6345 9461 · mhdfarhan760@gmail.com · linkedin.com/in/mhmdfarhann/ · github.com/muhmdfarhan

PROFESSIONAL SUMMARY

An Information Systems graduate with a keen interest in Information Technology, specifically in Web Development and Systems Analysis. Passionate about information systems development, problem-solving, and leveraging technology to create effective and innovative solutions. Highly active in organizational activities, possesses strong communication skills, and is committed to continuous professional development and adapting to the evolving demands of the IT industry.

WORK EXPERIENCE

Freelance Full-Stack Developer | *Work From Home (WFH)* | (Feb 2023 – Present)

Key Contributions:

- Develop and maintain web applications end-to-end, encompassing interface design, backend development, database integration, and the implementation of RESTful APIs.
- Designing and building responsive, structured, and scalable web systems using technologies such as Laravel, PHP, React.js, and MySQL.
- Implementing authentication, data management, third-party service integration, and performance optimization to support functional requirements and system efficiency.
- Conducting requirements analysis, technical troubleshooting, functional testing, and application maintenance to ensure the quality and reliability of the system.

Web Developer | *CV. Mediatama Web Indoensia - University Internship* | (Jun 2025 – Sept 2025)

Key Contributions:

- Developing web applications based on Laravel and MySQL to support the digitalization of business processes and integrated data management.
- Building responsive and interactive interface features, with a focus on ease of navigation, visual consistency, and user experience.
- Implementing CRUD features, data validation, transaction management, and database integration to enhance the effectiveness of information processing.

Junior Progammer | *KBMDG Studio – Internship* | (Jan 2022 - April 2022)

Key Contributions:

- Contribute to the development and maintenance of web applications through the implementation of features, writing of code, and improvement of system functionality.
- Applying programming logic, database management, and interface integration to support application development requirements.
- Collaborate with the team to understand project requirements, implement coding standards, and complete development tasks in accordance with the provided guidance and established targets.

SOFTWARE PROJECTS

HostBill

"Sistem Informasi Pengelolaan dan Penagihan Hosting pada CV. Mediatama Web Indonesia dengan framework Laravel Inertia"

GitHub : https://github.com/muhmdfarhan/hostbill

- building a website that makes it easier for companies to manage hosting and handle billing
- utilizing Laravel and Inertia, which simplifies the creation of the user interface
- capable of integrating data centrally via a dashboard provided within the system

Web-Ipos5

"Sistem kasir yang mampu memecahkan persoalan serta memiliki standar kasir Ipos5"

GitHub : https://github.com/muhmdfarhan/web-ipos5

- a point-of-sale website capable of solving existing problems
- a point-of-sale system integrated with centralized data and clear sales reports
- having clear data, thereby minimizing risks related to inventory and sales
- reducing the risk of employee fraud

Portofolio (Dalam Pengembangan)

"Website Portofolio saya secara pribadi"

EDUCATION

B.Sc. Information Systems | *Universitas Metamedia, Padang* | Sept 2022 – Sept 2026

GPA: 3.59/4.00 *Cumlaude* | Campus *Activist Star* – Wisuda ke-5 universitas Metamedia | Coursework: Full-Stack Web Development, Database Management Systems, Spatial Informatiosn Systems (WebGIS)

ORGANIZATIONAL EXPERIENCE

- *Campus role model* – Uda Kreatif Universitas Metamedia | 2023 – 2024
- KAFE KODING – Komunitas Coading, Kepengurusan serta Mentor HTML & CSS | 2023 - 2024
- HIMASI – Himpunan Mahasiswa Sistem Informasi – Koordinator Internal Bid. Pengembangan | 2024 – 2025
- BEM – Badan Eksekutif Mahasiswa - Wakil Ketua BEM & Koordinator Wilayah BEM-SI Wilayah Sumbar | 2025 – 2026

CERTIFICATIONS & ACHIEVEMENTS

- Web Development – BNSP (September 2022 – September 2025) | Cert. ID: 62019 3512 2 0000230 2022
- MTCNA – Mikrotik Certified Network Associate (Jun 2026) | Java Foundation – Oracle (May 2023)
- HTML & CSS Class Mentor – Kafe Koding (Feb 2024) : Mentored participants in Guiding participants in understanding the basics and fundamentals, logical functions and their interrelationships, and the creation of a portfolio.
- HUAWEI - AI Basic : Overview of AI (CRA Training Program) (Feb 2024) | AI Basic : Overview of AI (Feb 2025)
- EFE (English For Everyone) – Adult 1 (Feb 2025)
- DICODING INDONESIA – Belajar dasar Git dengan Github (Agt 2026) | Cert. ID : EYX464105PDL
- DICODING INDOENSIA – Belajar Prinsip Pemgoraman SOLID (Agt 2026) | Cert. ID : QLZ9Q55NEZ5D
- DICODING INDONESIA – Memulai Pemograman dengan Java (Agt 2026) | Cert. ID : 53XEN60MRXRN
- DICODING INDONESIA – Belajar Dasar Structured Query Language (SQL) (Agt 2026) | Cert. ID : GRX5D7V6KX0M
- DICODING INDONESIA – Memulai Pemograman dengan C (Agt 2026) | Cert. ID : N9ZO687K6XG5
- DICODING INDONESIA – Memulai Dasar Pemograman untuk menjadi pengembang Software (Agt 2026) | Cert. ID : 0LZ09KMKKZ65
- DICODING INDONESIA – Belajar Dasar Pemograman Web (Agt 2026) | Cert. ID : QLZ9R9NGEP5D
- Tulis Karya Ilmiah – Lomba tulis karya ilmiah Tingkat mahasiswa Se-Nasional (2022)
- Pengabdian dosen – PKM Dosen (2023) : participants in creating a business website related to the lecturer's service project, and presenting it to the entrepreneur
- Debat Cakrawala Intelektual mahasiswa Se-Sumatera Barat – Juara 1 mewakili BEM Universitas Metamedia (2025)
- Pilmapres (Pemilihan Mahasiswa Berprestasi) Wilayah LLDIKTI Wilayah X – 10 Besar (Universitas Fort De Kock Bukittingi) (2025)
- Lomba Baca Puisi mahasiswa Se-Sumatera Barat – Harapan 3 (2025)
- Mahasiswa Berprestasi Non Akademik – Wisuda Ke-4 Universitas Metamedia (2025)
- Bintang Aktivis – Wisuda Ke-5 Universitas Metamedia (2026)

SKILLS

- Languages & Frameworks: PHP, JavaScript, HTML5, CSS3, Laravel, CodeIgniter, React.js, Vue.js, Next.js | Styling: Tailwind CSS, Bootstrap, Material UI
- Database: MySQL, PostgreSQL, PostGIS | Stack: LAMP (Linux, Apache, MySQL, PHP) | Tools: Git, RESTful API, QR Code Systems, CMS Architecture
- SoftSkills: possesses leadership qualities, strong communication skills, a high willingness to learn, and attention to detail, as well as the ability to work collaboratively within a team
